Complete List of Presenters and Guests at the Khwarizmi Science Society

(1997-2008)

Given below is a list of the experts, scientists and students who have been invited to the platform of the **Khwarizmi Science Society** to present seminars and lectures, lead panel discussions, direct workshops and deliver our famous series of public lectures. You can appreciate the mix of intellectual and educational backgrounds these distinguished speakers come from, as well as the institutions they represent.

Our activities started in 1997, a time that predates the email culture in Pakistan; hence we could not locate electronic information about several of our presenters.
